### The Girl with Space in her Heart

The girl with space in her heart is a thrilling book for Year 4 and over. It's really intriguing pages hook you in and make you feel like you are a character in the book. This is a heart-felt story that teaches people that life isn't perfect but sometimes you have to go with the flow and trust each other. Lara Williams is a creative author who writes books that are different from others because she thinks outside of the box, which then makes a really interesting story.

Mabel Mynt is a teenage girl who loves space and her cat Jupiter. After a traumatic night, her father decided to leave her, Topaz and their mum behind. At her school Mabel is told to bring in an object to write a poem about, all she can find is a golden goblet that was under her bed. But what she doesn't know is that the goblet will change her life forever. By Scarlett TK
